The Indoor sports facility has a score of 0.34, which is in between Neutral and Satisfied. Our college is trying its best to add more indoor sporting equipment in terms of lighting, sporting items and other infrastructure renovations thereby providing more accessibility for students. As the institution, being in a rural area is such that the WiFi/Internet connectivity gets hampered now and then due to road construction activity and weather. However, our college tries its best to get timely re-connection or get it repaired most of the time to avoid interruption. Field trips are conducted and organized in the inter or multi disciplinary trips, as they are most self financed by the college. The college would definitely arrange for specific departmental educational trips once it is financially sound so to achieve the greatest outcome of the trip/program. Easy access for any administrative is a must for a smooth running of an institution. The survey shows a score of 0.66 which is below satisfactory level. This would be shared with the administrative block to check for improvement. The details of the report are provided as below:

For Student Satisfaction survey, the opinion of about 30 students was collected using a questionnaire as a feedback survey to assess the students' satisfaction on the curriculum, teaching learning process and infrastructure. The feedback is rated on 5 point scale from 1 to 5. There are 32 questions in the feedback questionnaire. Most of the students' show satisfaction with the syllabus covered & the teaching illustrations of the teachers. Students are also fully satisfied with the teacher's identification of students' strengths and weakness to encourage them with the right level of challenges. The feedback shows the students' agreement that the institution makes best effort to engage them in monitoring, review and continuous quality improvement of the teaching learning process. The students' are also taken for study tours outside the college campus in accordance to the requirements of the syllabus.
